

ANAKHA VIJAY

DATA ANALYST

Ernakulam, India

Phone: +91 7736851170 | Email: anakhavijay766@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Aspiring **Data Analyst** with hands-on experience in **Python**, **SQL**, and **Power BI**, focusing on translating **raw data** into actionable business insights. Adept at **predictive modeling**, **data visualization**, and developing scalable **data pipelines**. Proven ability to manage projects independently and deliver measurable improvements in operational efficiency and **business intelligence**. Passionate about leveraging data to drive strategic decision-making.

CORE SKILLS

Technical Skills: Python, SQL, Power BI, Tableau, Excel, Data Cleaning, Data Transformation, KPI Development, Statistical Analysis, Data Reporting

Analytical Skills: Predictive Analytics, Big Data, Dashboard Development, Data-Driven Insights, EDA (Exploratory Data Analysis)

Leadership & Management: Project Management, Team Collaboration, Problem Solving, Critical Thinking, Attention to Detail

Communication Skills: Report Generation, Presentation, Communication Skills, Technical Documentation, Stakeholder Engagement

WORK EXPERIENCE

Research Assistant

Toc H Institute of Science and Technology | 06/2025 - 07/2026

- Analyzed complex data sets to derive actionable insights, improving project outcomes by 20%.
- Developed reproducible analyses using Python, increasing research transparency by 15%.
- Enhanced database management systems, reducing data retrieval time by 25%.
- Streamlined data collection processes, resulting in a 30% improvement in efficiency.
- Contributed to collaborative research projects, achieving a 10% increase in publication outputs.
- Supported project teams with predictive analytics, aiding in accurate forecasting.
- Facilitated workshops on data analysis techniques, boosting participant skills by 40%.

AI / Computer Science Educator

Bhavan's Newsprint Vidyalaya | 01/2024 - 12/2025

- Delivered AI and computer science lessons, improving student understanding by 30%.
- Led Urban Traffic Optimization project, achieving a 15% efficiency improvement.
- Introduced data analysis techniques, enhancing practical understanding by 25%.
- Conducted workshops on data visualization, leading to a 20% skill advancement.
- Developed curriculum enhancements, resulting in a 10% increase in enrolment interest.
- Collaborated with educational teams on STEM initiatives, boosting student engagement.
- Assisted in accreditation processes, exceeding educational standards by 18%.

Data Engineer

Sapaad Pvt Ltd | 01/2023 - 12/2024

- Designed scalable data pipelines, reducing processing times by 30%.
- Automated workflows, leading to a 25% increase in reporting efficiency.
- Built Power BI dashboards to track KPIs, supporting strategic decisions with a 20% increase in accuracy.
- Translated business requirements into technical solutions, enhancing reporting efficiency by 35%.
- Collaborated cross-functionally to deliver solutions, increasing team productivity by 15%.
- Developed SQL scripts for data mining, improving data retrieval by 40%.
- Ensured high data quality standards, reducing errors by 10%.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Toch Institute of Science and Technology | 2019 - 2023

Higher Secondary Education

Fatima Matha HSS Piravom | 2017 – 2019

High School Education

Little Flower Vidyanikethan | 2017

CERTIFICATIONS

- AI Tools & Applications
- Foundation in Data Structures
- IELTS (Listening: 5.5, Reading: 5.5, Writing: 5.5, Speaking: 6 Overall Band Score: 5.5, CEFR Level B2)

ADDITIONAL SECTIONS

Projects:

- School Management Dashboard (Power BI):** Developed interactive dashboard for student performance and trends.
- Retail Sales Performance Dashboard:** Scrutinized sales data to enable data-driven decisions.
- Churn Prediction & Visualization:** Predicted customer churn using logistic regression.
- Netflix Global Content Analysis:** Analysed Netflix catalog for content distribution insights.
- Urban Traffic Optimization (AI-Based Project):** Simulated and optimized traffic flow in urban setups.
- Securing Data in Cloud Using Cryptography:** Engineered encryption models to secure cloud data.
